

HASEEN ULLAH

Aspiring Software Developer

FR Bannu, Pakistan | 0335-0539702 | haseenwazir282@gmail.com | linkedin.com/in/haseenwazir282 | github.com/Haseen298

PROFESSIONAL SUMMARY

Computer Science graduate with a strong foundation in programming, databases, web development and practical software projects. Experienced in building academic and internship projects using HTML, CSS, JavaScript, Node.js and MySQL. Currently learning React.js, Express.js, networking and cloud computing, with a focus on continuous learning and practical problem solving.

Bachelor of Science in Computer Science

Kohat University of Science and Technology (KUST), Kohat

Graduated: 2026 | CGPA: 3.10 / 4.00

Diploma in Information Technology (DIT)

Board of Technical Education, Peshawar

2020 – 2021 | Marks: 1007 / 1200

FSc (Computer Science)

Government Post Graduate College (GPGC), Bannu

2020 – 2022 | Bannu Board | Marks: 853 / 1100

Matriculation (Computer Science)

Government High School Ghulam Jan, Bakkakhel, FR Bannu

2018 – 2020 | Bannu Board | Marks: 886 / 1100

CodeAlpha — Software Development Intern

Internship Project: Data Redundancy Removal System

- Completed an internship task focused on identifying duplicate and redundant records.
- Implemented validation to check new data against existing records and prevent duplicate entries.
- Built a database-driven web application using HTML, CSS, JavaScript, Node.js and MySQL.
- Connected the project to Aiven MySQL and used MySQL Workbench for database management.
- Strengthened practical skills in problem solving, database handling and Git/GitHub workflow.

University Complaint Management System (UCMS)

BSCS Final Year Project

Developed a web-based system for submitting, routing, tracking and managing university complaints through role-based access and database integration.

- Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL

Data Redundancy Removal System

CodeAlpha Internship — Task 1

Developed a system that validates new records, identifies duplicate/redundant data, prevents duplicate entries and stores verified unique records.

- Technologies: HTML, CSS, JavaScript, Node.js, MySQL, Aiven MySQL, MySQL Workbench

AI Chatbot

Mini Project

Created a small web-based chatbot project to practice conversational interaction and front-end

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- MySQL
- Git
- GitHub
- VS Code

CURRENTLY LEARNING

- React.js
- Node.js
- Express.js
- Networking
- Cloud Computing

CORE AREAS

- Web Development
- Database Fundamentals
- Software Development
- Problem Solving
- Version Control

SOFT SKILLS

- Problem Solving
- Quick Learning
- Communication
- Teamwork
- Time Management

LANGUAGES

- Urdu
- English
- Pashto

INTERESTS

- Programming & Coding
- Web Development
- Learning New Technologies
- Reading / Bibliophile

programming concepts.

- Technologies: HTML, CSS, JavaScript

School Management System

DIT Project

Developed a database-based school management project using Microsoft Access for managing school-related records and information.

- Technology: Microsoft Access
